CRIOLLA

2023

Seductive, elegant wines, with a wonderful balance between structure and complexity. We seek to highlight in each one their varietal typicity. The grapes that give birth to these wines come from our own vineyards, after being carefully selected according to the characteristics and potential of the terroir for each wine.

STORY

"These wines are a tribute to them, the criollas, women of our tradition, workers and fighters of their land."

Although the history of criollo grapes has been written for centuries, Argentine viticulture has been coupled to a worldwide trend that has allowed giving a distinctive value to the native varieties that were born in our country. It is not a single grape but a group of different grape varieties, all with a common spirit that results in fresh, light-colored and highly productive wines: the Criollo grapes.
