History in the Making!

Lagarde Style

HISTORY

The history of Bodega Lagarde dates back to the cultivation of the first vines and the birth of the wine industry in Mendoza.

Established in 1897 and run by the Pescarmona family since 1970, the winery has always chased a central goal: to produce wines of the highest quality and to maintain a solid commitment to its land and its people.

We are proud to be one of the oldest wineries in the region, our vineyards dating back to 1906 and 1930.

INNOVATION

True to its commitment to innovation, Lagarde pioneered the introduction in Mendoza of non-traditional wines such as Viognier and Muscat Blanc.

TERROIR

Lagarde's wines originate exclusively from grapes of its own vineyards to ensure each varietal reflects the distinction of its terroir.

With more than 790 acres to different terroirs located in Luján de Cuyo (Agrelo, Mayor Drummond, Perdriel) and Valle de Uco (Vista Flores, Gualtallary), each of the locations has been carefully selected according to the special conditions each variety need to reach its maximum quality.

Blazing a Trail

PROTAGONISTS

The winery is run by third generation family members Sofía and Lucila Pescarmona, who strive to rise to the challenge of creating fine and original wines, embodying the perfect balance between the enduring past with a projection towards the future.

They are guided by a strong commitment of the sustainability of the land and its people. Our winemaker, Juan Roby, works hand in hand with the owners, to make the wine production process a true cult.

The Region

ARGENTINA is located in the southern area of the American continent.

MENDOZA is located in the center west of the country, at the foot of the Andes mountain range. LAGARDE is situated in the high area of the Mendoza River, in Luján de Cuyo, which is considered to be the prime wine growing region of the country due to its unique variety and quality.

Its soil originates from the desintegration of minerals from the Andes Mountains, which are carried by the water and deposited in layers of sandy texture, with good drainage and poor organic matter content: it creates the ideal conditions to produce high quality wines.

The Winery

THE BEGINNINGS

Still located in the original 1897 building, in the district of Mayor Drummond, in Luján de Cuyo, the winery kept its original architecture and treasures every instant of its history.

"Casa Patronal", the large old manor, is still permeated with the magic atmosphere of times gone by. Its thick adobe walls, cane roofs and hard pine floors converge in a typical 19th century colonial patio.

This patio is a symbol of the winery's charm and tradition, which stands as a relic of Mendoza's cultural heritage.
